

# DQP Portal Update

Release Notes October 2024

## DQP Portal How-To Guide

For details on how to use the DQP Portal Meter Compliance Form see the [DQP Portal How-To Guide](#), which can be found on the [DQP Portal Help Page](#).

## Latest Updates to the DQP Portal

### LID Registration – Vendor Options

As of 30 October 2024, SigSense has been removed as a LID vendor option from the DQP Portal. Please do not select SigSense as a LID vendor for any new site registrations in the DQP Portal, as this will be rejected. This is a result of the recent operational changes at SigSense.

For any enquiries such as warranty and replacement options for the Captis LID, please direct requests to the original manufacturer, Kallipr by email at [Support@kallipr.com.au](mailto:Support@kallipr.com.au)

### LID Registration – Reselecting the same LID Vendor

A bug that meant if a LID Vendor returned a form to the DQP by accident the DQP could not reselect the same LID Vendor has been fixed.
