Tips and hints

- The 'Trade Number SWC' that needs to be entered on the Westpac payment page is the unique 6 digit code from your trade form.
- These 6 digits are located on the top left of the Surface and Groundwater trade forms after the letters SWC.
- This identifier is important to make sure we can process your trade quickly.

- This SWC number can only be used once
- There needs to be a separate payment for each water trade

After you have entered your unique SWC number, as well as your credit card information please remember to enter your email address. This will provide you with an instant receipt for your payment that will be emailed to you.
